The new we cant understand

New order for the white guy,

New order for the black guy

New order for the yellow guy,

There have been new orders.

There has been world war.

Can't we live together,

Can't we be friends forever,

Do we have to fight forever?

Can't there be peace forever.

New order for the white guy,

New order for the black guy

New order for the yellow guy,

There have been new orders.

There has been world war.

Can't we enjoy together,

Can't we feel together,

Do we hate forever?

Can't there be peace for us?

Have we been world war?
